

**PRESS RELEASE**  
**21 January 2009**

## **[WWW.CDWS.TRAVEL](http://www.cdws.travel) GOES LIVE**

Egypt's Chamber of Diving and Watersports this week launched it's new website [www.cdws.travel](http://www.cdws.travel)

The site provides a wealth of information to those interested in Diving and Watersports in Egypt including destination information specific to each activity, live weather information, maps and wreck data and history provided by Red Sea wreck expert and author Ned Middleton (this section going live early February).

Most importantly the site features an up to date list of diving centres who have met the criteria of European Norm EN 14467/ISO 24803 for Recreational Diving Services. So far 120 Red Sea Diving Centres are listed as having received their ISO certification with more centres being added each week.

The site will continue to develop over the coming months to include more news, information, galleries and a 'Members Only' area for CDWS members who will be able to access information specific to their industry.
